15 Day West Australian Outback Expedition

Camping Small Group Tour - Max 6 passengers

Perth - Perth 21 September - 5 October 2021

Itinerary Highlights:

- Historic goldfield towns in the Coolgardie area - striking landscapes, gold rush heritage and Indigenous history.
- Anne Beadell Highway - is an awe-inspiring track which runs along the Great Victoria Desert passing through remote desert areas.
- Connie Sue Highway - travel through red sand dune country on this remote track through the Great Victoria Desert
- Eyre Bird Observatory in the Nuytsland Nature Reserve - a favoured site for bird watchers and nature enthusiasts.
- Granite Woodlands Trail - explore the worlds largest untouched temperate woodlands.

This outback expedition is no ordinary adventure. We follow two tracks built by Len Beadell (regarded as the "last real Australian Explorer), the Anne Beadell Highway (named after his wife) and the Connie Sue Highway (named after his daughter). They were completed in 1962. He surveyed these and many of the better-known outback tracks of Central Australia.

The highways pass through remote desert areas but don't be confused by the highway tag these tracks are rarely used and are often narrow, twisty and sandy, but well worth the adventure.

The trip departs from Perth and heads to Neale Junction via Laverton on the Anne Beadell Highway, before heading south on the Connie Sue to Cocklebiddy. We have allowed seven days to travel these tracks so we'll have plenty of time to explore the area's wildlife and breathtaking terrain.

We will spend two days at Eyre Bird Observatory to explore the wildlife and history in this peaceful and strikingly scenic outpost.

Making our way back to Perth we will have two days on the Granite Woodlands Discovery Trail which passes through one of the most extensive temperate woodlands left in the world.
